## A Tradition of Service. A History of Excellence.

We began our business by identifying solutions, innovating strategies, and keeping our promises for businesses to ship their packages and freight to, from, and throughout Canada. As the U.S.-based division of Purolator, we've raised the bar by being the only transportation provider with an exclusive focus on shipping from the U.S. to Canada. With our native Canadian expertise and U.S. reach, we have the resources and the capacity to provide fully integrated, end-to-end solutions for any logistics needs.

### **Over 98% On-Time Arrivals.**

More guaranteed on-time destinations in Canada than any other shipping company.

### **175 Operations Facilities**

We operate the largest network in Canada, with coast-to-coast coverage, so packages can be delivered to even the most remote locations.

### **Over 12,000 Dedicated Employees.**

We know the Canadian market down to micro detail, so we can provide enhanced logistics solutions, greater consumer reach and, especially, consumer satisfaction.

### **Largest Air Fleet Network in Canada.**

We have more routes than any other shipping company in Canada, ensuring that your packages stay in our hands from pickup to delivery.

### **Largest Dedicated Ground Network in Canada.**

Approximately 10% are Hybrid Electric Vehicles—the largest HEV fleet of any logistics company in North America.

Every day, Purolator delivers more than 1,000,000 packages.

We maintain the largest dedicated air fleet and ground network, including hybrid vehicles, and more guaranteed delivery points in Canada than anyone else.

But size alone doesn't make Purolator different. We also understand that the needs of no two customers are the same.

We can design the right mix of proprietary services that will make your shipments to Canada hassle free at every point in the supply chain.
