

# PuroFreight™

## Your Freight Moves Seamlessly with the Canadian Experts

Purolator moves 400,000 pounds of freight each night and 100 million pounds of freight each year. We've built our freight business over 50 years, and today there is no other carrier who can match our service and expertise shipping to, from, and within Canada. We offer multiple modes and service levels with access to all of Canada. All shipments are tracked in real time with total visibility – every step of the way. Our network is established and vast but with the flexibility to create lanes based on your needs. Our unmatched border clearance knowledge and experience is recognized and admired within the industry.

### **Air Freight**

As the Canadian air cargo experts, our Air Freight service is the ideal choice for high value and time-sensitive bulk shipments to and from Canada. With flights that suit your needs, your business can rely on our logistics experts to provide solutions through integration of information, transportation, inventory, warehousing, tracking, material handling, and packaging.

### **Air Charter**

A customized and time-sensitive supply chain is best served through our Air Charter service, which is designed for privacy, flexibility, and an expedited schedule to suit your needs. Our logistics experts work with you to determine the most efficient solution to satisfy your air cargo business requirements.

### **Less-than-Truckload**

Designed for businesses with heavyweight shipments typically between 151 - 20,000 pounds, LTL service provides considerable cost efficiencies over exclusive shipments. LTL shipments receive high quality service provided by our distribution network, our hubs in the U.S. and Canada, and our customs expertise both ways across the border. Services include liftgate service at pickup or delivery, residential service at pickup or delivery, inside delivery, and minimal handling.

## We Deliver Canada

Every day, Purolator delivers more than 1,000,000 packages.

We maintain the largest dedicated air fleet and ground network, including hybrid vehicles, and more guaranteed delivery points in Canada than anyone else.

But size alone doesn't make Purolator different. We also understand that the needs of no two customers are the same.

We can design the right mix of proprietary services that will make your shipments to Canada hassle free at every point in the supply chain.

# PuroFreight™

## Truckload

For customers that have large distributions within Canada, Purolator International will arrange to move your consolidated shipments to our induction facilities in Canada. Logistics experts plan timely and efficient border crossings and destination arrival while ensuring all U.S. and Canadian compliances are met. On arrival, all courier parcels are scanned, and LTL shipments are scanned at the skid level allowing for positive tracking at the lowest unit level possible. You can count on the integrity of your LTL shipments as skids are never broken down. Deliveries are completed by Purolator, which operates the largest ground fleet in Canada. Full Truckload service is also available for full loads from your dock to your customer's dock or your distribution center.

## Ocean

For businesses that require transport of cargo over bodies of water, Purolator International is armed with local and international experience and knowledge. We can transport your shipments over any distance and ease entry of cargo into U.S. and Canadian ports from coast to coast. Purolator International's Canadian customs brokers' expertise and streamlined logistics capabilities guarantee smooth transit and quick distribution from our U.S. and Canadian induction facilities to your final destination throughout North America.

## Rail

As Canada's largest transportation company, we have the resources and experience in all modes of transportation. Our Rail service is ideal for shipments moving across the U.S. and Canadian border as well as shipments traveling across Canada's landscape. Our Rail service is backed by our industry-best supply chain and logistics capabilities. We will work with your team to develop a Canadian supply chain that best suits your distribution needs throughout North America.
