

The Canadian Marketplace is Open for Business

Every day, \$2 billion in goods crosses the U.S./Canadian border. With so much trade going on between these two countries, there are bound to be some unexpected hurdles. Brokerage, logistics and import fees, customs delays, and even unforeseen tariffs can all create headaches for your shipping needs. However, with Purolator International by your side, there's a distinct economic advantage in using a Canadian-based logistics provider that has operations in the United States. We have a broader range of service options to offer and that means visibility, flexibility, and efficiency. Our national network reach and local market knowledge allow us to better customize import strategies to meet your business needs through delivery and budget considerations.

Import Freight Service

This service shows the advantages of having in-place networks in both the U.S. and Canada.

- Ideal for freight and multiple shipments
- Veteran teams of border and customs experts streamline cross-border shipments
- U.S. hubs and network keep the supply chain flowing with end-to-end transparency

Import Parcel Consolidation

- Designed for small packages, this unique service can offer dramatic cost savings
- Purolator can consolidate several small shipments into a single large shipment at one of our facilities before transporting it to the Canadian border
- The packages are then delivered to a U.S.-based Purolator facility where they will be distributed to their destinations

We Deliver Canada

Every day, Purolator delivers more than 1,000,000 packages.

We maintain the largest dedicated air fleet and ground network, including hybrid vehicles, and more guaranteed delivery points in Canada than anyone else.

But size alone doesn't make Purolator different. We also understand that the needs of no two customers are the same.

We can design the right mix of proprietary services that will make your shipments to Canada hassle free at every point in the supply chain.
