Time-Definite Delivery

Accelerating delivery to help you meet the demands of your business.

We know the demands of today's business climate: speed, security and reliability are critical, with innovations such as just-in-time shipping requiring precision delivery. With guaranteed time-definite delivery options for both ground and express services from Purolator, you are able to provide a better customer experience with guaranteed, on-time delivery throughout the day. Whether shipping next day, 2–3 days or longer, you can offer your customers more choices.

Flexible delivery to meet your deadlines.

- Morning Service — 9 AM
- Midmorning Service — 10:30 AM
- Noon Service — 12:00 PM

And if later is better for you, we also offer End-of-Day Service (6 PM) and Evening Service (5:30–9 PM).

Simple ordering, simple pricing.

Unlike competitors where ground service is not time-definite, Purolator International offers this option to all U.S. companies shipping to Canada — for both ground and express. Simply choose the service level you want and then choose the guaranteed time-definite option that best suits your needs.

A better experience, faster. It's as simple as that.

You already know we have the largest delivery network in Canada — delivering to more Canadian businesses and customers than anyone else — combined with PuroTouch, the highest level of customer service in the business. When you add the flexibility of guaranteed, on-time delivery at any time of the day, the benefits are clear.
